

PRIVATE LESSONS

Information Sheet

Why Private Dance Lessons?

Group Classes are awesome. Sometimes a dancer needs to slow it down to one particular technique or choreography. A Private Dance Lesson or Lessons provide young dancers as well as professional dancers the individual attention to perfect choreography, a particular technique or time to improve upon what has been learned in a group class setting. For competitive dancers a private dance lesson can provide individual rehearsal time with the benefit of critiques on a competitive judge level. For a young professional or professional dancer audition prep can be crucial to being the best you can be to land that part or job.
